

Brainstorming & Idea Prioritization Template

Date	30 June 2026
Team ID	*****
Project Name	Smart Lender – AI-Powered Loan Approval Prediction System
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Yaswanth Ganesh R (Team Lead)	Use XGBoost for highest prediction accuracy	ML Model	1
2	Yaswanth Ganesh R (Team Lead)	Build Flask web app for real-time loan prediction	Web Application	2
3	Sandhya Mondam	Train Decision Tree model for interpretability	ML Model	1
4	Salma Shaik	Collect and preprocess structured applicant data	Data Processing	3
5	Sandhya Mondam	Evaluate model performance using training and testing accuracy	ML Model	2
6	Salma Shaik	Compare KNN and Random Forest model performance	ML Model	1

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Use XGBoost as the primary classification model for loan prediction	High	High	1	Yes
2	Evaluate model performance using training and testing accuracy	High	High	2	Yes
3	Preprocess structured applicant data with encoding and feature scaling	High	Medium	3	Yes
